DRINKING WATER ADVISORY

Date: November 6,2026

This is to advise that there is a water break on Vanier Drive. Please be advised that we will be temporarily shutting your water off to perform water main repairs. We will attempt to have the water turned back on as soon as possible.

This Precautionary Drinking Water Advisory applies to the residents and users of

1-27 &29 Vanier Drive

Pursuant to Clause 36(1)(b) of *The Environmental Management and Protection Act 2010*, consumers must be notified to:

a) **Boil all water, used for drinking purposes, for at least one (1) minute, at a rolling boil, prior to use;**
b) **Boil water to be used for other activities where it may be ingested, including: brushing teeth or soaking false teeth, washing fruits and vegetables, food or drink which will not be heated and ice cubes.**
c) **Not use the water for washing dishes, unless the water has been boiled or the dishes are sanitized in another fashion. Washed dishes and utensils can be soaked in a bleach solution (approximately 2 tablespoons of bleach per gallon or 10 ml of bleach per litre of water) for at least two minutes after being washed to kill any bacteria which may be present. NOTE: DO NOT MIX BLEACH WITH SOAPS OR DETERGENTS!**
d) **Ensure that younger children and infants are sponge bathed.**
e) **Consult with your physician if you have cuts or rashes that are severe before using the water.**

Under most circumstances, there is no need to boil water used for other household purposes. Adults, adolescents and older children may shower, bathe or wash using tap water but should avoid swallowing the water. Laundry may be washed in tap water, either by hand or by machine.

This advisory is effective immediately, ***and will remain in effect until advised by the City of Melville***. If you require any additional information, please contact:
